The Certified Agile Leader® 1 training, also known as CAL 1™ training, is the industry standard and most widely recognized program in modern, agile leadership

The **2-day program** is structured in two parts.

The **first day** is focused on personal leadership development and company culture. This day will allow participants to discover the way agile leaders think, focus, and behave.

Covered topics:

- Why resilience and agility are required in today's world
- Leadership foundations and organizational archetypes: mapping organization, culture and leadership
- Leadership behaviors and development: how an effective leader in the 21st century can adopt a multi-dimensional leadership approach
- Organizational culture: why it matters, what it is, how it can be described, and how you can influence your organization's culture

The **second day** of Certified Agile Leader® 1 training is focused on leading organizations, including organizational design and strategy. At the end of this day, the participants will position themselves to sustainably transform their business to one that delivers better products and services to your customers.

Covered topics:
- The Cynefin framework and situational decision-making approaches
- Focus on value: organizational design and enablers to customer centricity
- Competency assessment: how to equip your organization to deliver value more effectively
- Techniques to increase team effectiveness
- Organizational strategy and change in a complex environment: validating learning in small steps
- Optimizing value flow: collaboration across multiple teams

The class is designed for: Leaders, Managers, Senior directors, C-suite executives, Consultants, Product Leaders and anyone who leads or wants to lead people.

Participants will be granted the CAL 1™ Certification.
